

Basalt is a great place to go, but I think we could make it better. Basalt has lots of trailers and very crowded with buildings. If you look at my map, you may be witnessing the future.

I think that in the area of the RMI, there should be a field/park. I think this because of the space. In the park, there should be a tennis court, little forest, soccer area, pond, fountain and two bathrooms.

If there are stands by the park, there could be a drinking stand. In case you run out of air.

There should also be a bank

Basalt is an ok place but there is not a lot of people but I can change that. I'm not saying that Basalt is bad but I can make it better with a little more excitement like for kids and grownups. Like when kids are at the park and parents are shopping at a market, or when kids are at the water center while grownups are at Boogie's. And if you are on a trip you can stay in a confort in.

Today I am going to tell you
some ideas I had created for the
town of ~~some~~ I wanted to add a
basketball/volleyball court
because then anyone would
be allowed there.

I would put Noodles N
company next to a
skate park because
then when they're done
with their ~~feet~~ ~~feet~~ they
can grow a bit.

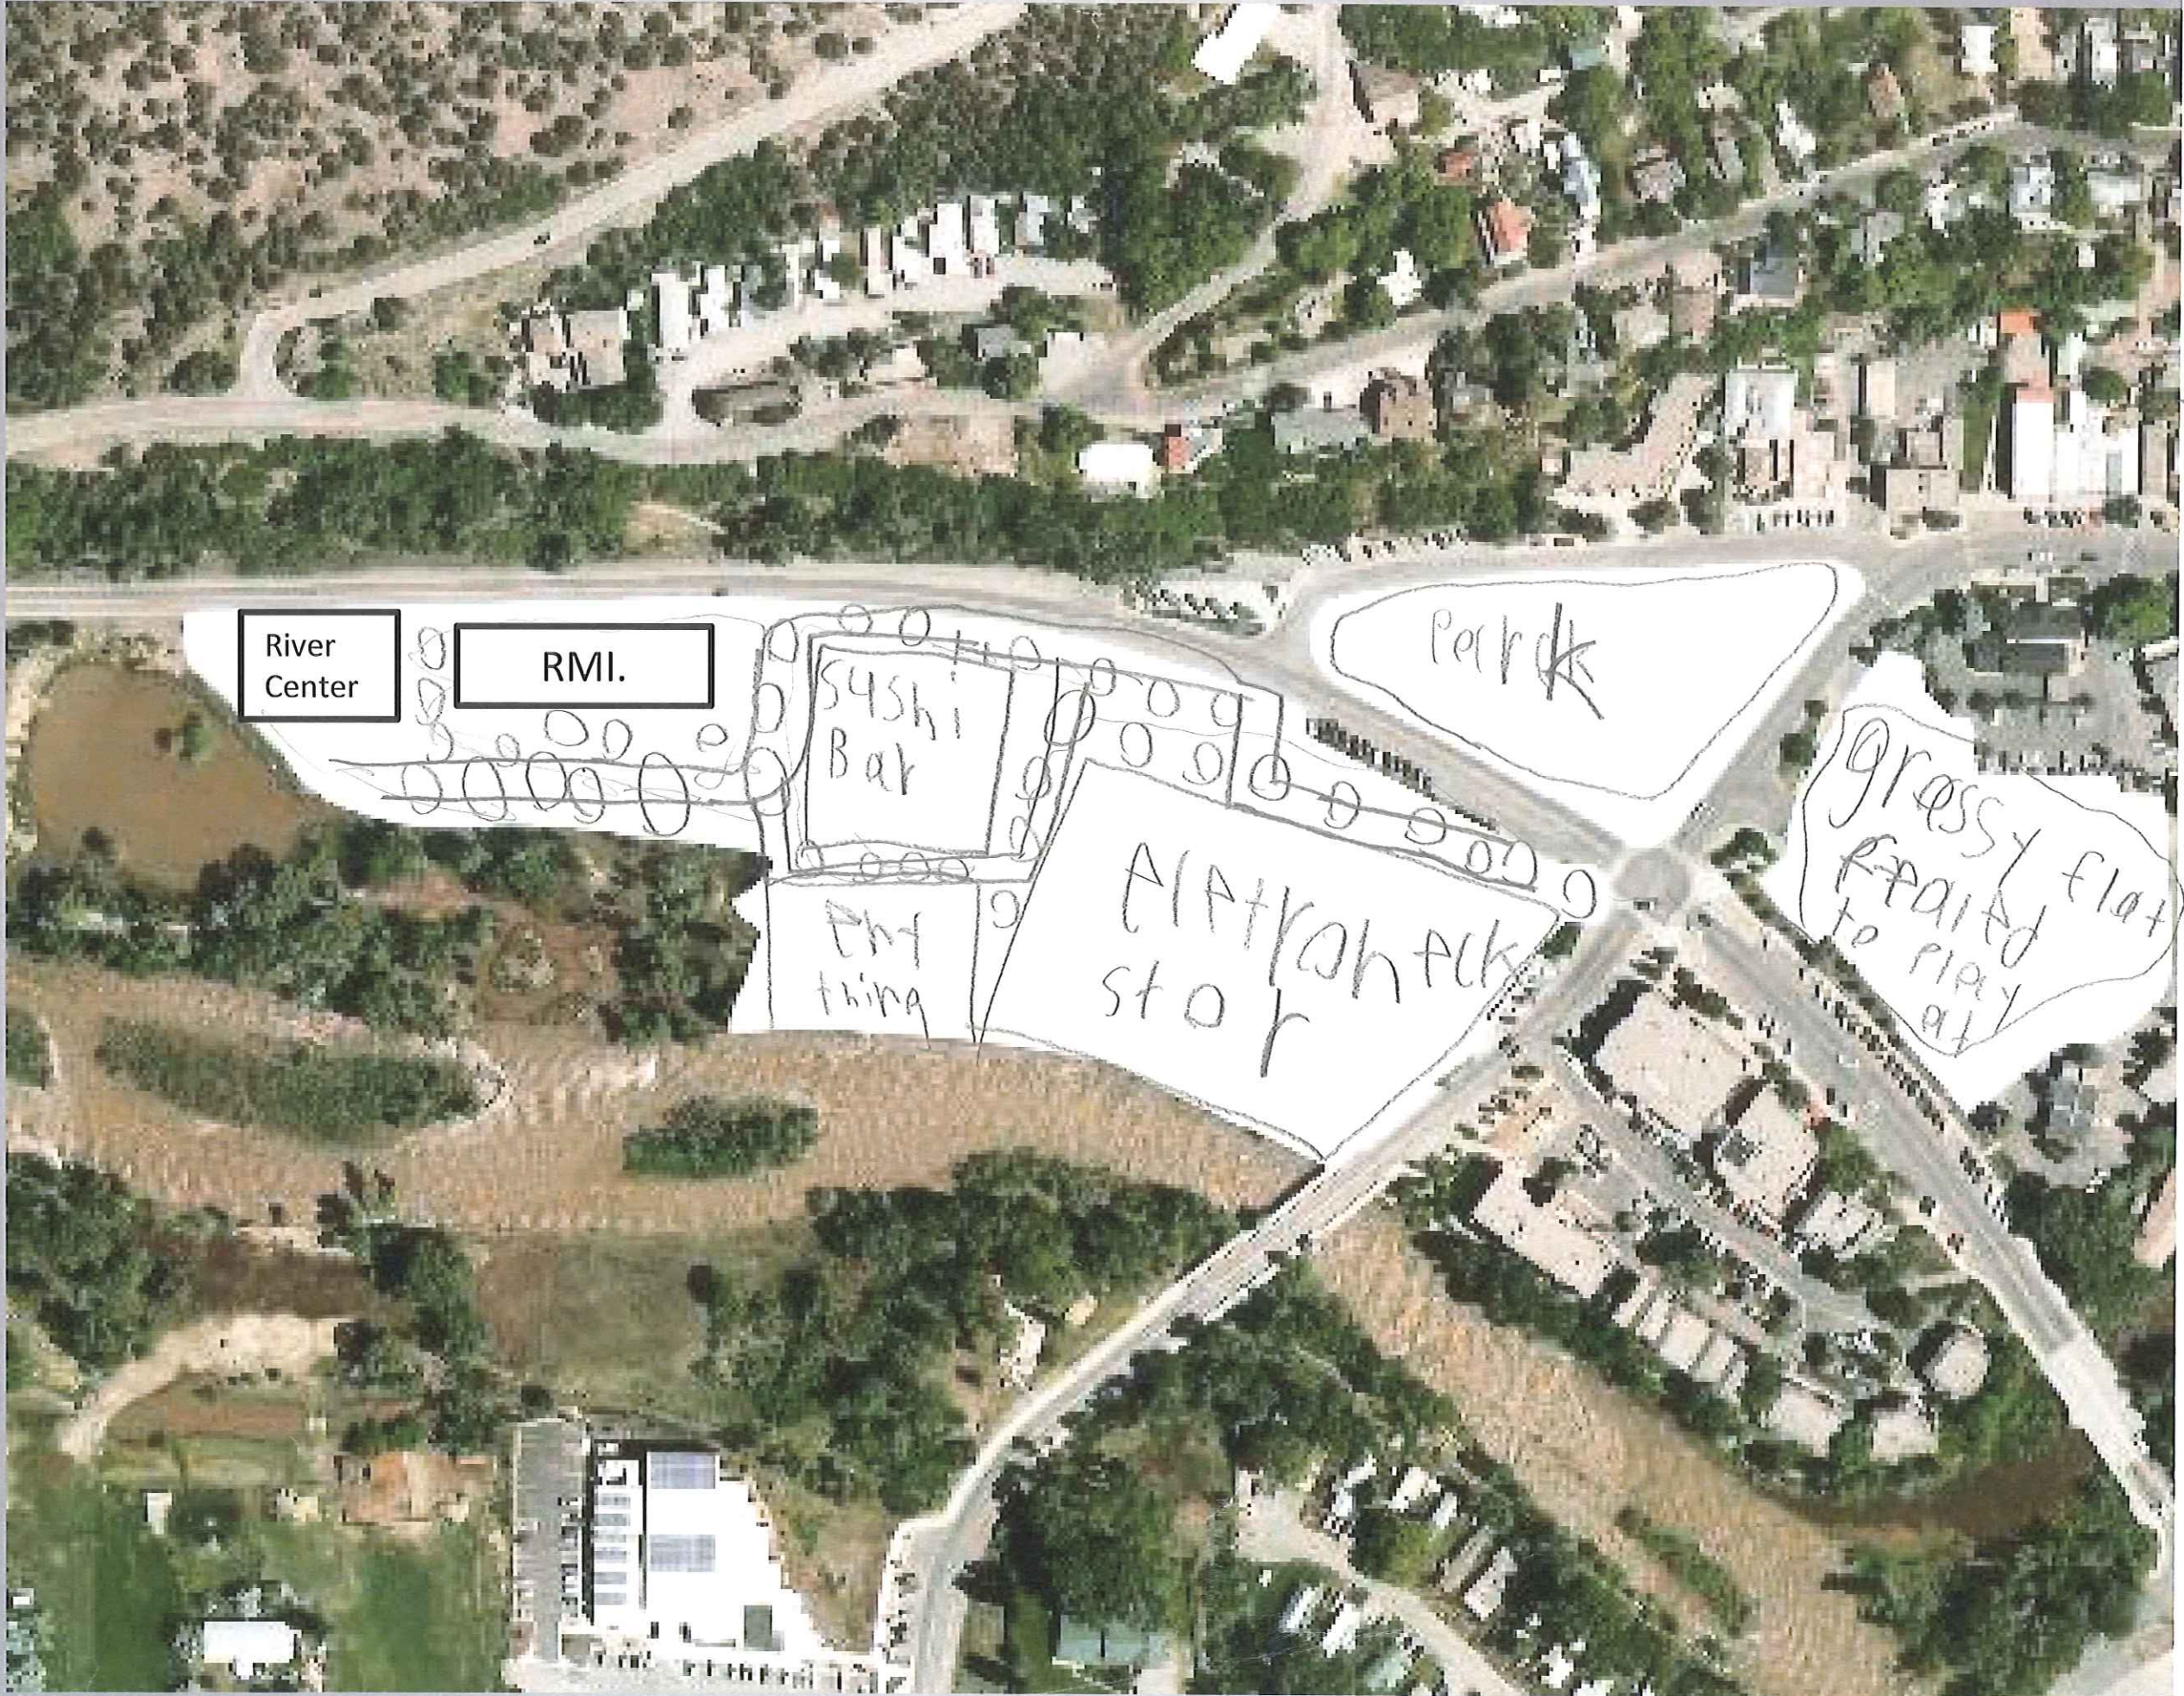

I put in a batting cage
so kids can get better at
baseball.

I want to put a Cesers palace. I think it would be really cool. Sometimes they have a cheese cake factories inside. The one that I want to had great food shows with stachuses that throw fire. They also have resturants with different Senes. They have fish tanks on the walls and sting rays in the fish tanks. They have old streets that ^{you can} ~~that~~ ^{walk} ~~through~~ makes you feel like your in Paris. There ^{is} ~~are~~ also fancy resturants with gultin free menus!! You better wear comfy shoes because your going to want to walk everywhere.

I also have apartment buildings. So if people have jobs at Cesers palace they can just cross the street to get to work.
