There are many reasons ~~that~~ why people would come to Basalt, but the main reason is, in my opinion, nature. Because of this I decided to not to just think about what I build, but I ~~also~~ <sup>thought</sup> ~~thought~~ about it's affect to the wild life.

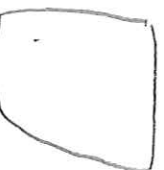

I included a Rec Center and mall, but I kept them away from the river because ~~every~~ everyone loves the river and wants to be able to enjoy it!! So, I decided to add a large raft, canque and sail boat rental.

Basalt is a family freidly place but it doesnt have many things for familys to enjoy. For kids I made after school activity centers and for special occasions, a wid park.

Unfortanaty Basalt has no where to buy clothing so a small clothing shop would be nice. Thank You I hope you take my ideas and others in to consideration,

I believe that this map is a good blueprint for the future. I <sup>of Basalt</sup> included a big parking-Lot so people can park their cars. All of the sidewalks are so you can walk around. I like my idea because, it's keeping some nature. Basalt is a beautiful place, so we want to keep it that way. It would be cool to have tree houses open to the public. The After school-Sports center would help people keep active when having fun. I have a flat hiking trail so everybody can hike easy. My lake will be good for fishing and the river center. I think we should have an Indoor pool for rainy days and an outdoor pool for warm and sunny days. The trees surrounds everything for shade. Also, nobody wants to drive into basalt and see buildings. The people that come into Basalt will be guaranteed to be surrounded by nature.
