Councilors,

Watching the level of excitement in Town it's probably best to turn this down or Table anything with the Pan and Fork until after the April Election.

Let the issue go into the election cycle with new representation elected by the people, where it should be and see who wins the election.

This should not be about Opinions or Positions.

It should be about Facts and Issues.

Take responsibility for the debacle, step back and allow the Election to create new leadership to solve this situation.

This allows the people in Basalt to create the policy mandates by their vote.

Clean and in the democratic tradition.

Please try to keep tonight simple. Recognize that as a Council you will only have 4 or 5 Legislative sessions before the Election. It would really stink for you to hamper the new Council's ability to actively solve this problem.

The Election of the Mayor and Councilors is a cleansing process if nothing else. Safe place for those to move to and safe from a future of "embedded" conflict like we have had for years.

Table it or vote against it...

Many peoples thoughts.

David Schoenberger
